# Subject Index—Volumes 90-97

A

Abscess
  pyogenic
    of the long bones in children, 96:108
Abstracts
  transactions of the annual meeting of the Association of Bone and Joint Surgeons, 94:306
Accidents
  motor vehicle
    human causes and injuries sustained, 92:239
Acetabulum
  primary protrusion
    report of affected identical twins, 94:257
Acromegaly
  peripheral joint manifestations of, 91:119
Agenesis
  lumbo-sacral and sacral
    4 cases of, 92:214
Alcoholics
  changes in bone mass in, 90:229
Alcoholism
  and its effect on the human hip, 90:95
Allograft
  bone
    the bone inductive potential of a composite, marrow autograft in rabbits, 97:237
Ankle
  arthrography
    in acute strains, 93:278
  injuries
    arthrography in (Abstract), 92:342
Ankylosing spondylitis
  of the cervical spine
    etiology and treatment of acute flexion deformity (Abstract), 93:369
Anomalies
  intraspinal
    in congenital scoliosis, 93:103
Antibiotics
  an overview, 96:31
Apatite
  carbonate-containing
    in bone, 90:271
Arm
  throwing
    athletic injuries (Abstract), 92:340
Arteries
  variations in the
    of the median nerve, 97:144
Arthritis
  granulomatous bacterial, 96:165
    pathogenesis of antigen-induced, 97:248
  rheumatoid
    knee
      total replacement of, 94:58
    wrist arthroplasty in, 90:133
  septic
    antibiotic treatment of, 96:150
    of childhood, 96:152
Arthrodesis
  compression
    a modification of the Charnley method for, of the knee, 91:95
    of the shoulder, 90:178
      (Abstract), 90:278
Arthrography
  ankle
    in acute strains, 93:278
  controlled
    of the hip: a technic of fluoroscopic monitoring and recording, 93:260
  in ankle injuries (Abstract), 92:342
Arthrogryposis multiplex congenita, 94:263
Arthropathy
  idiopathic
    of the elbow, 97:90
  steroid
    of the hip, 90:50
Arthroplasty
  hip, low-friction
    9 and 10 year results, 95:9
  knee
    duocondylar total, 94:185
    evaluation of the Walldius and other prostheses, 94:104
    polycentric, 94:128
      a preliminary report of postoperative complications in 450 knee, 94:136
      a review of 84 patients with more than one year follow-up, 94:136
      using tibial prosthetic units of a variable height, 94:140
    knee replacement and biomechanics, 94:8

knee, total
with the use of the Walldius knee prosthesis, 94:72
low friction, experience with, 95:60
in congenital subluxation of the hip, 91:89
of the first metatarsal phalangeal joint using a Swanson silastic finger prosthesis (Abstract), 90:276
of the hip, 95:4
polycentric knee
the use of, in the treatment of fracture deformities of the knee, 97:114
resection
of the elbow (Abstract), 93:373
revision, using Charnley low-friction arthroplasty technic, 95:48
Shiers'
of the knee, 94:122
total hip
complications according to Charnley, 95:91
Charnley-Müller, interim results, 95:195
evaluation of, 95:213
factors influencing results in 2,012, 95:250
total hip replacement
the rationale of antibiotic prophylaxis in, 96:206
results in patients, 95:80
total knee
geometric; conception; design, indications and surgical technic, 94:171
geometric; patient data and complications, 94:177
Walldius
a review of 80 cases, 94:85
wrist
in rheumatoid arthritis, 90:133
Avascular necrosis
of the femoral head
as the presenting manifestation of Cushing's disease, 97:70

## B

Biomechanics
and knee replacement arthroplasty, 94:8
Blood
hemoglobinopathies
conditions of the hip associated with, 90:22
Bone
chondroblastoma of,
a critical review, 95:300
cysts
unicameral, in the adult (Abstract), 90:276
effects of immune environments upon, *in vivo* cytotoxicity of antibodies to bone homogenates, 93:297
fragments
on prosthetic methods intended to repair, 94:4
growth
influence of a magnetic field on (Abstract), 90:275
mass
changes in, in alcoholics, 90:229
matrix in the mouse
a bone morphogenetic system in residues of, 91:210
mineralization
theories of, 97:225
morphogenesis
hyaluronic acid production and removal during, in implants of bone matrix in rats, 90:236
morphogenetic system in residues of bone matrix in the mouse, 91:210
multiple epiphyseal arrests (Abstract), 93:371
Bristow procedure
an evaluation of
for recurrent dislocation and subluxation of the shoulder in athletes (Abstract), 90:278
Brushite
in bone, 90:271
Bursitis
abductor pollicis longus, 93:293

## C

Calcification
biological
the role of phospholipids in, 90:191
Calcinosis
tumoral, and mongolism, 91:164
Calcitonin
opposing actions of, and cortisone upon osteogenesis in a heterotopic site, 90:201
Calcium
passage of, and strontium across the intestine in man, 91:225
Carpal-tunnel syndrome
shoulder pain as the presenting complaint, 92:227
Cartilage
growth, in the rat tibia
aspects of the maturation process in, 95:288
growth plate of the rat rib, cellular differentiation, 90:246
rabbit
protective and destructive effects on injured, *in vivo*, 91:243

Cellular proliferation
in the formation of fracture callus in the rat tibia, 91:197
Charnley
low friction arthroplasty technic
revision arthroplasty using, 95:48
Charnley method
modification of, for compression arthrodesis of the knee, 91:95
Charnley prosthesis
total hip replacement with, 95:69
Chemonucleolysis
a comparative analysis of lumbar disk disease treated by, 90:119
comparative results of laminectomy and (Abstract), 90:280
Chemotherapy
newer knowledge of
in the treatment of tuberculosis of bones and joints, 97:5
Chloroquine
protective and destructive effects on injured rabbit cartilage *in vivo*, 91:243
Chondroblastoma
of bone
a critical review, 95:300
Chondrogenesis
newer knowledge of, 96:327
Chondrosarcoma
of the extraskeletal soft tissue of the finger 97:148
Chymopapain
long-term effects on intervertebral disks of dogs, 92:281
Cineradiography
of the braced normal cervical spine (Abstract), 90:277
Clavicle(s)
congenital bilateral pseudarthrosis of the, 91:162
Clean surgeons and clean air, 96:168
Clostridial myonecrosis
gas gangrene
hyperbaric oxygen in the management of, 96:271
Clubfoot
deformity
roentgenographic assessment of soft tissue medial release operations in, 90:146
Collagen
defect in intramolecular and intermolecular cross-linking of, caused by penicillamine, 91:186
review of biochemical studies on genetically distinct, of the skeletal system, 92:260
Collagenase(s)
mammalian, 96:310
Connective tissue
the hip in heritable conditions of, 90:33
response to immobility
biochemical changes in periarticular connective tissue of the immobilized rabbit knee, 93:356
Contracture
ischemic
local in the hand, 90:137
Copper
trace levels of manganese, and zinc in rib cartilage, 93:346
Cortisone
opposing actions of calcitonin and, upon osteogenesis in a heterotopic site, 90:201
Cushing's disease
avascular necrosis as the presenting manifestation of, 97:70
Cyst
bone
current concepts on the treatment of solitary unicameral, 97:40
bone, aneurysmal
pathogenesis and long-term results of treatment, 97:53

## D

Dermatitis
contact
to resin-containing casts, 90:150
Dextran 70
prophylactic treatment with, in total hip replacement, 90:110
Discogram
studies in the lumbar region (Abstract), 90:280
Disk(s)
intervertebral, of dogs
long term effects of chymopapain in, 92:281
Dislocation
fracture, of the hip, 92:147
non-traumatic atlanto-axial in children, 92:220
recurrent traumatic
of the hip in children, 90:107
of the elbow
intra-articular median nerve entrapment with, 90:100
traumatic
of the hip, 92:116
traumatic hip, in children, 92:189
treatment of pelvic fractures and, 97:97

Dysphagia
ankylosing vertebral hyperostosis and (Abstract), 93:370
Dysplasia
fibrous
associated with Shepherd's crook deformity of the humerus, 97:38
skeletal
ultrastructure of selected (Abstracted), 90:274

E

Editorial comment, 96:2
EHDP. See ethane-1-hydroxy-1, 1-diphosphonate
Elbow
dislocation of the
intra-articular median nerve entrapment with, 90:100
idiopathic arthropathy of the, 97:90
pigmented villonodular synovitis, with bony invasion, 94:275
resection arthroplasty of the (Abstract), 93:373
Electron microscopy
the application of, to the diagnostic differentiation of Ewing's sarcoma and reticulum cell sarcoma, 91:174
Enchondrosarcoma
resection, autoclaving, and massive autogenous grafts for (Abstract), 93:376
Endoprosthesis
as the primary treatment of femoral neck fractures, 92:69
Ethane-1-hydroxy-1, 1-diphosphonate
disodium
effect of low doses, on disease osteoporosis in the denervated cat tail, 91:235
Extremities
serious injuries of, with nerve and vascular complications (Abstract), 92:338
upper
injuries to, inflicted by the mechanical cornpicker, 92:231

F

Femoral head
avascular necrosis of the
as the presenting manifestation of Cushing's disease, 97:70
Femur
cervical fractures of
treatment by muscle pedicle graft (Abstract), 92:338
comparison of gram-negative bacillary and staphylococcal osteomyelitis of the, 96:70
(Thigh bone)
fractures of the neck of, 92:3
fractured
infection complicating intra-medullary nailing of the, 96:266
greater trochanter
an approach for hip construction: broad visualization without osteotomy of the, 91:70
head
avascular necrosis of, 92:108
posterior fracture-dislocation of the, 92:145
shaft
fracture
ambulant non-operative management of (Abstract), 92:340
unstable intertrochanteric fractures of, 92:77
Fibroma
chondromyxoid
ultrastructure of, 95:295
Fibrous dysplasia
hip problems in, 90:77
Fibula
congenital absence of the (Abstract), 93:371
fracture
the unstable distal oblique, 92:330
Finger(s)
chondrosarcoma of the extraskeletal soft tissue of the, 97:148
synovitis of the extensors of, associated with extensor digitorum brevis manus muscle, 95:278
Fluoroscopic monitoring
controlled arthrography of the hip
a technic of, and recording, 93:260
Foot
talectomy
modern indications for (Abstract), 93:375
Fracture
callus
cellular proliferation in the formation of, in the rat tibia, 91:197
cervical
of the femur, treatment by muscle pedicle graft (Abstract), 92:338
difficult
total hip replacement as a salvage procedure in (Abstract), 92:340
femoral neck
experience with a sliding nail in, 92:63
treatment of, 92:16
endoprosthesis as the primary treatment of, 92:69

femoral shaft
ambulant non-operative management of (Abstract), 92:340
hand
treatment of (Abstract), 92:341
hip
dislocation of, 92:147
failure in sliding nail fixation for (Abstract), 90:279
in children from birth to adolescence, 92:155
intracapsular (Abstract), 92:339
reconstructive operations for (Abstract), 92:339
intertrochanteric
external skeletal fixation of (Abstract), 92:341
neoplastic subtrochanteric treatment of, 97:108
occult
subluxation of the midtarsal joint, 93:291
of the femur
unstable intertrochanteric, 92:77
of the knee joint (Abstract), 92:340
of the odontoid in children (Abstract), 93:375
of the tibial condyle
Stubbins' arthroplasty for, 90:140
open, cause, effect, and management, 96:254
pathologic
from metastatic malignant melanoma, 90:255
pelvic
treatment of, and dislocations, 97:97
problem, in the hand
in relation to intrinsic muscle imbalance (Abstract), 92:342
rotational supracondylar of the proximal phalanx in children (Abstract), 92:340
subtrochanteric, 92:86
supracondylar of the humerus in children, 90:130
surgical treatment of chronic osteomyelitis complicating, 96:118
the unstable oblique distal fibular, 92:330
tibial plateau
treatment of (Abstract), 92:339
trochanteric (Abstract), 92:339
unstable intertrochanteric, 92:100 (Abstract), 92:339
unstable Colles
Steinmann pin fixation in (Abstract), 92:338
vertebral
inter-relationship between, and osteoporosis, 90:209
Freeman-Swanson
knee prosthesis
total knee replacement using, 94:153

## G

Gaucher's disease
hip joint involvement in, 90:4
Graft
muscle pedicle
treatment of cervical fractures of the femur by (Abstract), 92:338
Grafting
skin
the treatment of chronic osteomyelitis by saucerization and immediate, 96:98
Gram-negative bacillary
comparison of, and staphylococcal osteomyelitis of the femur and tibia, 96:70
GUEPAR
Total knee prosthesis, 94:211

## H

Hand
bone and joints of the
silicone replacement in the (Abstract), 90:276
fractures
treatment of (Abstract), 92:341
ischemic contracture local in the, 90:137
problem fractures
in relation to intrinsic muscle imbalance (Abstract), 92:342
segmental bone loss
replacement of (Abstract), 93:372
Harrington
distraction rod
telemetry recordings of forces in the: a method for increasing safety in the operative treatment of scoliosis patients, 93:158
Harrington instrumentation
an 11-year clinical investigation of, 93:110
the history and development of, 93:110
wound infection with, and spine fusion for scoliosis, 96:222
Heart disease
congenital
and scoliosis, 93:95
Hip
arthroplasty of the, 95:4
biomechanics of the (Abstract), 92:339
conditions associated with hemogloginopathies, 90:22
congenital subluxation of the low-friction arthroplasty in, 91:98

controlled arthrography of the
a technic of fluoroscopic monitoring and recording, 93:260
dislocation
recurring anterior (Abstract), 90:279
fractures
reconstructive operations for (Abstract), 92:339
failure in sliding nail fixation for (Abstract), 90:279
fracture dislocation of, 92:147
fractures in children from birth to adolescence, 92:155
Harris total replacement
preliminary report of results, 95:168
human
alcoholism and its effect on the, 90:95
in Gaucher's disease, 90:83
in heritable conditions of connective tissue, 90:33
in the myelomeningocele child, 90:11
intracapsular fractures (Abstract), 92:339
joint
biomechanics of the, 92:6
extensive exposure of the, 91:58
involvement in Gaucher's disease, 90:4
long-term follow-up of intertrochanteric osteotomy in osteoarthritis in the, 93:265
the Kocher-McFarland approach for prosthetic replacements, 91:63
total replacement of, 95:34
joint replacement
metal to metal using the Urist socket, 95:38
low-friction; 9 and 10 year results, 95:9
motion
normal ranges, in the newborn, 91:114
neuropathic injuries of the, 90:29
problems associated with organ transplants, 90:57
problems in fibrous dysplasia, 90:77
problems in systemic disease, 90:2
recurrent traumatic dislocation of the, in children, 90:107
rheumatoid
care of the, 90:70
steroid arthropathy of, 90:50
total
prosthesis design St. George, results, 95:201
total arthroplasty, Charnley-Müller interim
factors influencing results in 2,012, 95:250
complications according to Charnley, 95:91
results, 95:193
total joint replacement in osteoarthritis and polyarthritis, 95:224
total prosthesis
Stanmore metal-on-metal using a 3 pin type cup, 95:239
total replacement
as a salvage procedure in difficult fracture problems (Abstract), 92:340
clinical follow-up, 95:118
complications, 95:73
complications revisited, 95:96
arthroplasties, evaluation of, 95:213
evaluation of results and technics, 1967–1972, 95:217
total replacements in 700
experience with 6 types, 95:174
massive articular osteolysis in rheumatoid arthritis treated by, 90:161
McKee-Farrar method, statistics of, 95:26
by the McKee-Farrar prosthesis
a preliminary report, 95:143
metal against metal, 95:43
methylmethacrylate cement
analysis of data from 3,482 cases, 95:231
posterior buttock pain following, 90:104
prophylactic treatment with Dextran 70, 90:110
results, a critical follow-up study, 95:111
results in patients, 95:80
roentgenographic evaluation, 95:104
three years experience, 95:151
Trapezoidal-28, 95:158
with the Charnley prosthesis, 95:69
traumatic dislocations of the, 92:116
in children, 92:189
Humerus
displaced supracondylar fractures of immediate open reduction, 90:130
fracture of the
immediate open reduction and internal fixation of severely displaced supracondylar, in children (Abstract), 90:278
fibrous dysplasia associated with Shepherd's crook deformity, 97:38
osteosarcoma of, with axillary lymph node metastases, 90:233
proximal half
prosthetic replacement of (Abstract), 90:276
proximal half of the
prosthetic replacement of the, 93:250
Hormone(s)
human pituitary growth (Abstract), 90:279
Hyaluronic acid
production and removal during bone morphogenesis in implants of bone matrix in rats, 90:236

## I

Infection
bone
the pathophysiology of, 96:12
chronic
non-toxic detergent irrigation of, 92:320
complicating intramedullary nailing of the fractured femur, 96:266
disk space
pyogenic vertebral osteomyelitis, 96:234
experimental bone
antibiotic prophylaxis in (Abstracts), 90:277
joint
the pathophysiology of, 96:129
musculoskeletal
due to *Serratia marcescens*, 96:76
orthopaedic
comparative bacteriology of early and late, 96:277
surgical
the role of impervious drapes and gown in, 96:210
the prevention of
in open wounds, 96:42
the problem of, in endoprosthetic surgery of the hip joint, 96:213
the radiology of, 96:20
wound
with Harrington instrumentation and spine fusion for scoliosis, 96:222
Infection unit
an attempt to control infections in hospitals, 96:36
Injection
drug
main line, accidental intra-arterial, 94:268
intravenous and intra-osseous of zinc berylium silicate,
increased bone formation in rabbits following, 92:251
Injuries
athletic
the throwing arm (Abstract), 92:340
of the cervical spine in athletics (Abstract), 90:276
neuropathic
of the hip, 90:29
of the knee joints (Abstract), 92:340
soft tissue
to the shoulder (Abstract), 92:341
thermal
management of bone and joint deformities from (Abstract), 92:341
to the upper extremity
inflicted by the mechanical cornpicker, 92:231
Intestine
in man
passage of calcium and strontium across the, 91:225
Irrigation
non-toxic detergent, of chronic infections, 92:320

## J

Joint(s)
acromioclavicular
dynamic repair of the (Abstract), 93:374
hip
the problem of infection in endoprosthetic surgery of the, 96:213
infected
radiology of, 96:136
knee
replacement-development and evaluation, 94:24
simulator, 94:15
Joint fluid
analysis of normal and diseased, for immunologic factors, 93:363

## K

Knee
arthroplasty
duocondylar total, 94:185
geometric total
conception, design, indications, and surgical technic, 94:171
patient data and complications, 94:177
polycentric, 94:128
with the use of the Walldius total knee prosthesis, 94:72
compression arthrodesis of
a modification of the Charnley method for, 91:95
fracture deformities of the use of polycentric knee arthroplasty in the treatment of, 97:114
immobilized rabbit
the connective tissue response to immobility, 93:356
injuries in the cross body block (Abstract), 93:375
joint replacement
development and evaluation, 94:24
with the Walldius prosthesis using cement fixations, 94:65
first experience on, using the Young hinged prosthesis combined with a modification on the McKeever patella prosthesis, 94:115
joint simulator, 94:15

medial and posterior ligaments a surgical approach to, 91:29
modular, 94:242
new total prosthesis, 94:202
osteoarthritis of the
obesity: its relationship to, 93:271
patella
recurrent subluxation of the, in children (Abstract), 93:373
replacement arthroplasty and biomechanics, 94:8
Shiers' arthroplasty, 94:122
spherocentric, 94:234
support
useful for some conditions postoperative (Abstract), 92:341
total, prosthesis
GUEPAR, 94:211
total replacement, 94:92, 196
in rheumatoid arthritis, 94:58
the Walldius hinge, 94:50
using the Freeman-Swanson knee prosthesis, 94:153
with the "LL" type prosthesis, 94:249
Knee joint
injuries and fractures of (Abstract), 92:340
rabbits'
early changes in immobilized, 92:305
synovial hemangioma of the, 90:183
treatment of axial deviations of, by means of intercondylar femoral osteotomies, 91:86
Kocher-McFarland approach
to the hip joint for prosthetic replacements, 91:63

L

Laminectomy
a comparative analysis of lumbar disk disease treated by, 90:119
comparative results of, and chemonucleolysis (Abstract), 90:280
Legg-Perthes' disease
a comparative study of costs of treatment of, 96:304
Lentigines syndrome
multiple
a case report of a rare familial syndrome with orthopaedic considerations, 97:34
Ligament(s)
posterior cruciate
degenerative joint changes following, section in rabbits, 93:307

M

Manganese
trace levels of, copper, and zinc in rib cartilage as related to age in humans and animals, both normal and dwarfed, 93:346
McKee-Farrar
total hip replacement, method statistics of, 95:26
Melanoma
metastatic malignant
pathologic fracture from, 90:255
Meniscus tears
lateral, in young children, 97:117
Metacarpal
second
dislocation of the, 95:253
Methylmethacrylate
cement
total hip replacement using, 95:231
monomer
a histologic and hemodynamic study of the toxic effects, 90:262
blood pressure lowering effect of, 94:302
peripheral vascular effects of (Abstract), 90:277
potential hepatotoxic effects of, 93:366
Microbiological studies
in a horizontal wall-less laminar air-flow operating room during actual surgery, 97:16
Midtarsal joint
subluxation of
occult fractures, 93:291
Milwaukee brace
a follow-up study of forces acting on the, on patients undergoing treatment for idiopathic scoloiosis, 93:53
indications for, nonoperative treatment in idiopathic sczoliosis, 93:38
Mineral
components of the hard tissues
the problems of the composition and structure of the, 93:313
Mineralization of bone
theories of, 97:225
Mongolism
tumoral calcinosis and, 91:164
Muscle
imbalance
problem fractures in the hand in relation to intrinsic (Abstract), 92:342
spindle
normal and denervated (Abstract), 90:279
Myelograph
cervical, 97:75

N

Necrosis
aseptic
treatment of femoral neck fractures emphasizing long term follow-up observations on, 92:16

avascular
of the femoral head, 92:108
Nerve
median
variations in the arteries of, 97:144
return of skin sensation in children without repair of, 95:273

O

Obesity
its relationship to osteoarthritis of the knee, 93:271
Octacalcium phosphate
in bone, 90:271
Operating room(s)
clean room, 96:179
microbiological studies in a horizontal wall-less laminar air-flow, during actual surgery, 97:16
orthopedic
ultraviolet light in, at Duke University, 96:195
the surgeon and clean air in the, 96:188
Orthopedic(s)
complications of the drug subculture (Abstract), 93:374
contributions to operative (Classic), 97:2
magnification roentgenographic technic in, 91:169
Orthopedic surgery
indications for, in the mentally retarded patient, 90:174
of Spina Bifida, 92:195
use of flexible implant material in (Abstract), 93:372
Osteoarthritis
in the hip joint
long-term follow-up of intertrochanteric osteotomy in, 93:265
of the knee
obesity: its relationship to, 93:271
total hip joint replacement in, and polyarthritis, 95:224
Osteoarthrosis
at the hand skeleton, 90:90
Osteoblastoma
of the spine, 91:141
Osteogenesis
in a heterotopic site
opposing actions of calcitonin and cortisone upon, 90:201
Osteogenesis imperfecta
current aspects of the surgical treatment of, 96:288
new approaches to treatment of, 93:239
new perspectives, 96:299
Osteolysis
massive articular
in rheumatoid arthritis, treated by total hip replacement, 90:161
Osteomyelitis
chronic
surgical treatment, complicating fractures, 96:118
treatment of, by saucerization and immediate skin grafting, 96:98
treatment of, with emphasis on closed suction-irrigation technic, 96:88
in children, 96:51
infections
an experimental study on, 96:3
pyogenic vertebral
disk space infections, 96:234
some uncommon forms of, 96:84
staphylococcal
comparison of gram-negative bacillary and, of the femur and tibia, 96:70
subacute
in children, 96:57
Osteoporosis
disuse
effect of low doses of Disodium ethane-1-hydroxy-1, 1-diphosphonate, in the denervated cat tail, 91:235
the development of, 90:217
the interrelationship between vertebral fractures and, 90:209
Osteosarcoma
of humerus
with axillary lymph node metastases, 90:233
Osteotomy
dome shaped
of the upper tibia for multiplane correction, 91:152
high tibial
a follow-up study and description of a modified technic, 93:274
intercondylar femoral
treatment of axial deviations of the knee joint by means of, 91:86
intertrochanteric
long-term follow-up of, in osteoarthritis of the hip joint 93:265
Oxygen
hyperbaric
in the management of Clostridial myonecrosis (gas gangrene), 96:271

P

Pain
posterior buttock, following total hip replacement 90:104

Patella(r)
prosthesis
long-term evaluation of, 94:285
Patellectomy
experimental
degenerative changes following, in the rabbit, 92:296
Penicillamine
defect in intramolecular and intermolecular cross-linking of collagen caused by, 91:186
Phalanx
proximal
rotational supracondylar fractures, in children (Abstract), 92:340
Phospholipids
the role of, in biological calcifications, 90:191
Polymethylmethacrylate
microstructure of, 91:221
some properties of, with reference to its use in Orthopedic surgery, 95:281
Polyarthritis
total hip joint replacement in osteoarthritis and, 95:224
Prosthesis
knee
new total, 94:202
McKee-Farrar
total replacement of 116 hips, 95:143
patellar
long term evaluation of, 97:153
St. George
results of total hip, 95:201
Stanmore metal-on-metal total hip, using a 3 pin type cup, 95:239
total hip
comparative review of McKee-Farrar and Charnley, 95:127
total knee
development of stabilizing, employing physiological principles, 94:222
Prosthetic(s)
replacement of the proximal half of the humerus, 93:250
Pseudarthrosis
congenital bilateral
of the clavicles, 91:162
Pulmonary function
in spinal deformity, 93:33

## R

Radial head
isolated dislocations of the
without fracture of the ulna, 97:94
Rheumatoid arthritis
bilateral rupture of the infrapatellar tendon in, 91:158
massive articular osteolysis in, treated by total hip replacement, 90:161
Ribs
cartilage
trace levels of manganese, copper, and zinc in, as related to age in humans and animals, both normal and dwarfed, 93:346
rat
growth cartilage plate of the, cellular differentiation, 90:246
Rickets
de rachitide sive marbo puerili, qui vulgo, dicitur, 93:4
Roentgenographic evaluation in total hip replacement, 95:104
Roentgenography
assessment of soft tissue medial release operations in clubfoot deformity, 90:146
magnification technic in orthopedics, 91:169
Rupture
bilateral
of the infrapatellar tendon in rheumatoid arthritis, 91:158

## S

Sarcoma
Ewings
a consecutive series of 64 cases diagnosed in Sweden 1958–1967, 95:263
application of electron microscopy to the diagnostic differentiation of, 91:174
familial osteogenic, 97:65
reticulum cell, of bone application of electron microscopy to the diagnostic differentiation of, 91:174
Saucerization
treatment of chronic osteomyelitis by, and immediate skin grafting, 96:98
Scoliosis
and congenital heart disease, 93:95
anterior correction
experience of, 93:191
classification and terminology of, 93:10
congenital,93:75
experimental, 93:69
intraspinal anomalies in, 93:103
idiopathic
a follow-up study of forces acting on the Milwaukee brace on patients undergoing treatment for, 93:53
indications for Milwaukee brace non-operative treatment in, 93:38
surgical treatment of, 93:131
in muscular dystrophy, 93:235

newest views on, 93:2
non-treated, 93:44
nosologic and genetic aspetcs of, 93:23
operative treatment of, patients telemetry recordings of forces in the Harrington distraction rod: a method for increasing safety, 93:158
surgery in adults, 93:225
wound infection—with Harrington instrumentation and spine fusion for, 96:222
Scapula
congenital elevation of the
in a family, 97:13
Sepsis
joint
distension-irrigation treatment of, 96:160
the epidemiology of, 96:5
*Serratia marcescens*
musculoskeletal infections due to, 96:76
Shepherd's crook deformity of the humerus
fibrous dysplasia associated with, 97:38
Shoulder
arthrodesis of the, 90:178
(Abstract), 90:278
frozen
manipulation of the (Abstract), 90:278
pain as the presenting complaint in Carpal tunnel syndrome, 92:227
soft tissue injuries to the (Abstract), 92:341
surgical approaches to the, 91:34
winged scapula treatment of, 91:128
Skeleton
axial
the anterior approach to the spine for the correction of deformities of the, 93:207
hand
osteoarthrosis at the, in primary osteoarthrosis of the hip and in normal controls, 90:90
Skin
and the orthopedist (Abstract), 90:279
cutis
cleavage of the, 91:3
scars
avoiding unnecessary, 91:13
sensation
return of, in children without repair of nerves, 95:273
Spasticity
ground rules for preoperative evaluation of (Abstract), 90:275
Spina Bifida
orthopedic surgery of, 92:195
Spinal cord
activity
functional monitoring of, during spinal surgery, 93:173
Spinal curves
rigid
the management of, 93:215
Spinal deformity
halo pelvic traction: a technic for severe, 93:179
Spine
ankylosing vertebral hyperostosis and dysphagia (Abstract), 93:370
anterior approach to
for the correction of deformities of the axial skeleton, 93:207
anterior cervical fusion
late results of (Abstract), 93:370
anterior fusions
an experimental study of the immediate load bearing capacity of 3 surgical constructions for, 91:21
cervical
injuries of, in athletics (Abstract), 90:276
etiology and treatment of acute flexion deformity of the, in ankylosing spondylitis, (Abstract), 93:369
braced normal, cineradiography of (Abstract), 90:277
surgical approaches to the anterior structures of, 91:16
deformity
pulmonary function in, 93:33
fifth lumbar vertebra
spontaneous healing of spondylolysis, 93:256
first cervical vertebra
tuberculosis of, 90:116
fusion
psychological, demographic and orthopaedic factors associated with prediction of outcome of, 90:153
halopelvic traction (Abstract), 93:370
internal plastic splint and fusion for stabilization of the, 92:325
lumbar
disk disease treated by laminectomy or chemonucleolysis, 90:119
the paraspinal sacrospinalis—splitting approach to the, 91:48
lumbar laminectomies, laminectomies and fusion (Abstract), 90:280
lumbar region
discogram studies in (Abstract), 90:280
odontoid
fractures of, in children (Abstract), 93:375
osteoblastoma of the, 91:141
thoraco-lumbar junction
anterior approach, by a retroperitoneal-extrapleural technic, 91:41

surgery
functional monitoring of spinal cord activity during, 93:173
Spine fusion
wound infection with Harrington instrumentation and, for scoliosis, 96:222
Spondylolysis
of the fifth lumbar vertebra
spontaneous healing of, 93:256
Stanmore
metal-on-metal total hip prosthesis using a 3 pin type cup, 95:239
Steinmann pin fixation
in unstable Colles fractures (Abstract), 92:338
Steroid
arthropathy of the hip, 90:50
Strontium
passage of calcium and, across the intestine in man, 91:225
Stubbins' arthroplasty
for fractures of the tibial condyle, 90:140
Surgery
endoprosthetic
the problem of infection in, of the hip joint, 96:213
orthopedic
some properties of polymethylmethacrylate with reference to its use in, 95:281
Surgical approach
for hip construction
broad visualization without osteotomy of the greater trochanter, 91:70
new
symposium on, 91:2
to the anterior structures of the cervical spine, 91:16
to the medial and posterior ligaments of the knee, 91:29
to the shoulder, 91:34
Surgical constructions
for anterior spine fusions, and experimental study of the immediate load bearing capacity of 3, 91:21
Swanson silastic finger prosthesis
arthroplasty of the first metatarsal phalangeal joint using (Abstract), 90:276
Syndrome
carpal tunnel
shoulder pain as the presenting complaint in 92:227
scapholunate impingement (Abstract), 90:278
Synovial hemangioma
of the knee joint, 90:183
Synovitis
of the extensors of the fingers associated with extensor digitorum brevis manus muscle, 95:278
pigmented villonodular
occurred in a rheumatoid patient, 91:134
of the elbow without bony invasion, 94:279

## T

Telemetry
recordings of forces in the Harrington distraction rod: a method for increasing safety in the operative treatment of scoliosis patients, 93:158
Tendon
infrapatellar
bilateral rupture of, in rheumatoid arthritis, 91:158
split, transfer (Abstract), 93:374
Thumb. *See under* Hand.
Thumb
abductor pollicis longus bursitis 93:293
Tibia
comparison of gram-negative bacillary and staphylococcal osteomyelitis of the, 96:70
in the rat
cellular proliferation in the formation of fracture callus, 91:197
aspects of the maturation process in growth cartilage, 95:288
shaft defects
the postero-lateral approach to the infected (Abstract), 92:338
upper
experiences with dome shaped osteotomy, for multiplane correction, 91:152
Tibial condyle
Stubbins' arthroplasty for fractures of the 90:140
Tibial plateau
treatment of, fractures (Abstract), 92:339
Tibial prosthetic units
polycentric knee arthroplasty using, 94:140
Tissue(s)
hard
the problems of the composition and structure of the mineral components of the, 93:313
mineralized
application of electron spin resonance in research on, 97:213
Traction
halo pelvic
a technic for severe spinal deformities, 93:179
Transplants
organ
hip problems associated with, 90:57
Trapezoidal-28
total hip replacement, 95:158

Trauma
hip dislocations in children, 92:189
Trochanter. *See under* Femur.
Tuberculosis
of bones and joints
newer knowledge of chemotherapy in the treatment of, 97:5
of the first cervical vertebra, 90:116
Turner's (XO) syndrome
orthopedic aspects of, 97:19

U

Ulna
isolated dislocations of the radial head without fracture of the, 97:94
Ultraviolet light
in orthopedic operating rooms at Duke University, 96:195
Urist socket
hip joint replacement
metal to metal, using, 95:38

V

Vertebrae. *See under* Spine.
Vertebral column
infective lesions of, 96:248

W

Walldius
arthroplasty
a review of 80 cases, 94:85
evaluation of, and other prostheses for knee arthroplasty, 94:104
Walldius hinge
knee
total replacement, 94:50
Walldius prosthesis
replacement of the knee joint using cement fixation, 94:65
total knee
knee arthroplasty with the use of, 94:72
Wound contamination
surgical
a study of some factors which contribute to, 96:176
Wrist
arthroplasty
in rheumatoid arthritis, 90:133

X

XO (Turner's) syndrome
orthopedic aspects of, 97:19

Z

Zickel nail
neoplastic subtrochanteric fracture
6 cases treated, 97:108
Zinc
trace levels of manganese, copper, and, in rib cartilage, 93:346
Zinc beryllium silicate
increased bone formation in rabbits following intravenous and intraosseous injections of, 92:251
